

American Concrete Institute, Missouri Chapter
Abdeldjeli Belarbi Graduate Scholarship

To Whom it may concern:

I have been associated with Hayder Alghazali for some time, now, and feel comfortable recommending him for the Abdeldjeli Belarbi Graduate Scholarship. Hayder is conscientious, hard-working, and focused on his research. He is knowledgeable with the workings of a materials lab, which is a plus in my book, and is proactive in regards to maintenance and safety policies in our labs. I feel he has great potential for growth and possesses those qualities that would serve him well in a leadership position.

It is my sincere hope that you will consider Hayder for this scholarship.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steven Michael Lusher".
