

SOUTHERN ILLINOIS UNIVERSITY  
**EDWARDSVILLE**

3 March 2015

Mr. Dane M. Shaw  
Director  
Scholarship Program  
American Concrete Institute Missouri Chapter

Mr. Shaw:

I am writing in response to a request from one of our construction management students, Steve Knotts, who is applying for the ACI Missouri undergraduate scholarship and asked me to provide a letter of recommendation. Steve is currently a student in my construction materials class.

Steve is relatively new to our program but he is already taking on a leadership role in my class with active participation and interest. Steve has demonstrated excellent communication skills and a proactive attitude. Steve has previous construction experience having worked as a construction foreman and he is currently an intern at a surveying company.

Steve has great potential as a construction management student and as a construction manager after graduation. We are looking forward to watching him progress through our program and further develop his leadership skills. He is already a role model for other students in the program. An ACI scholarship would help Steve to continue to attend our program and would be greatly appreciated particularly during these challenging economic times.

Thank you for considering Steve for the scholarship.

Sincerely,

Anne Werner, P.E., Ph.D.  
Assistant Professor
